

**Job Role: Business Analyst**  
**City: Lucca**

In 2017, Tagetik was acquired by Wolters Kluwer, a global leader in information services and solutions for professionals in the finance, health, tax and accounting, risk and compliance, and legal sectors. As part of the Wolters Kluwer Corporate Performance Solutions business unit, Tagetik (now known as CCH Tagetik) continues to build its strong reputation by translating the complex challenges of Office of Finance into innovative corporate performance management software solutions that drive business results.

At CCH Tagetik, passion is our greatest strength. We take great pride in the diverse talents of our workforce. A career at CCH Tagetik means working for CPM solutions that eliminate boundaries for our customers, while working with and learning from the best and brightest minds in the industry. We are able to offer to qualified people with talent, passion and integrity, a great career opportunity. CCH Tagetik offers exceptional career opportunities for high achievers in a variety of areas. Whatever your role at CCH Tagetik, you will need to be qualified, motivated, dynamic and a team player in order to share strategies, challenges and future goals.

We're looking for a Business Analyst with technical aptitude and some accounting or finance knowledge.

The candidate we choose to join our dynamic team will work within the services organization to support the operational management and control of the services operations of CCH Tagetik. Within the activities of the services operation team he could be responsible of the management of the internal Tagetik tool.

**What will you do:**

Through a combination of product training and by working with our team of seasoned senior consultants, you'll acquire a solid knowledge of the CCH Tagetik application.

You'll manage the interaction with the operations to identify business issues or areas for improvement, combine it with your experience to help build a full understanding of our operations.

You'll document and then support the implementation of the resulting solutions.

You'll acquire valuable skills, gain access to a vast and diverse network of talented professionals, and enjoy unparalleled training and educational opportunities.

**DESIRED SKILLS:**

MSc degree in one of the following areas: Economics, Computer Science, Computer engineering, Management Engineering, Statistics and Mathematics

Good analysis and problem-solving abilities are essential

Good knowledge of Microsoft Office in particular Excel

Curious about innovation and digital

Interpersonal skills and ability to build and maintain relationships

Employ a collaborative approach with cross-functional team members, technology leaders, and stakeholders to build solid working relationships

Fluent in English

Travel required
